

Task 1 : Enquiries in Tourism Office

The graph below shows the number of enquiries received by the Tourist Information Office in one city over a six-month period in 2011.

Summarize the information by selecting and reporting the main features and make comparisons where relevant.

Vocabulary

- Enquiries - question - inquiries - คำถาม
- The number of - จำนวน (countable nouns - เติม s)
- The amount of - จำนวน (uncountable noun - the amount of time)
- Whereas -, whereas....= ในขณะที่ (เชื่อมเนื้อหาตรงข้าม) - syn. While
- Time frame (n.) period
- Increase (v.) rise/ grow/ surge
- Decrease (v.) decline, fall, plummet
- Reach a peak/ peak (v.) ขึ้นไปสูงสุด ant. Reach the lowest point
- Nearly, approximately, roughly - ประมาณ

คำเชื่อม (Cohesive device)

- Similarly- เชื่อมไปในทางเดียวกัน
- However, on the other hand, in contrast - เชื่อมตรงกันข้าม

Adverb บอก Degree

- มาก - dramatically, drastically, considerably, significantly (อย่างมีนัยสำคัญ)
- น้อย - slightly, minimally
- กลาง - moderately

Grammar

- N + v.3 = ex. questions asked by / Enquiries received by
- Past simple = S + v.2 (90% - v.ed)

- V.ing - น. - การ/ความ

Introduction

The line graph compares the number of questions that the Tourist Information Office received from different methods: in person, letter or email, and by telephone, over a six-month period from January to June in 2011 in an unknown/ unidentified city.

- **Simplified pattern** : *The line graph + compares + สิ่งที่ compare + สิ่งที่ compare ที่เขียนในโจทย์ + over aperiod + what city/ country.*

Overview

Experience / undergo an upward trend ขยับ

Downward trend ตก

Remain stable

Overall, it can be clearly observed that questions asked in person and by telephone experienced an upward trend, whereas enquiries received by emails or letters underwent a downward trend during the given time frame.

Body 1 (2 complex sentences)

Starting in January, at 900 enquiries, asking by telephone was/ represented the most popular among all three methods, **followed by** sending letters or emails and asking in person **at 800 and 400, respectively. However,** the number of questions asked in person and by telephone increased moderately to 800 and 1000 in March, while telephone enquiries decreased slightly from nearly 800 to 700.

Body 2 (2 complex sentences)

From March onwards, enquiries submitted in person surged dramatically and reached a peak at 1900 in June. **Similarly,** after remaining stable from March to June, the number of questions from phone calls continued to grow and peaked at 1600 across the same period. **On the hand, it is interesting to note** that inquiries from letters or emails declined significantly from 700 in March and reached the lowest point at 400 in June/ by the end of the given period.
