

*Summing it
all up*

Technique for short questions, especially part 1

- **Remember to use Past/ Present/ Future**
 - Ex. How did you come here today?
 - Generally, I take a sky train to travel to work. However, I drove myself here today because the location is not accessible by public transport.

Technique for short questions, especially part 1

- **Tell me about your best friend at school.**
 - *His name is John. We used to hang out a lot back in high school. We used to travel together after graduation. However, he just got married last year, and since then, we haven't talked much.*

GIVE YOUR OPINION

- ***Are there times when you study/work better by yourself?***
 - Yes, definitely. While I was at university, my friends used to go out and study together at a café. I was alone reading in my room. Personally, I believe that it's better because I was able to focus more and I ended up scoring higher than all of them, so I think that's great.

Say - where/ when/ why?

- **What sorts of food do you like eating most?**
 - *I really love Japanese food because I think that the food is very nicely made and it is a piece of art. I remember going to Japan and eating all types of Japanese food and being really impressed by all of them.*

Tips for Part 2

- ***Categorize your speech into at least 2-3 sections***

- Throughout my life/ Generally speaking...
 - Therefore/ however.....
- To start off,
 - what?
 - where?
 - when?
 - why?
- Moving on to + the reason why/ the description of.....
 - Firstly
 - Secondly
 - Most importantly
- In the future/ if I am given an opportunity, Looking back
 - I would definitely.....
 - I am glad that....
 - I should have known better.....

Describe a special occasion when you had a really enjoyable meal.

You should say:

what the occasion was

who was at the meal

what you ate

and explain why the meal was so enjoyable.

TIPS FOR PART 3

- **Expand your ideas**
 - Give an explanation (because?)
 - Give examples
 - Discuss two points of view (on the one hand, on the other hand..)
 - there are pros and cons to everything
 - Put your emotions forward...
 - Review vocabulary on each topic (education, social media, personality...)

What advantages can tourism bring to a city?

Well, I can think of a couple of benefits, but the most important benefit, in my opinion, would be for the economy. For example, Phuket, Thailand has benefited greatly from foreigners' spending in the area. A lot of people are secure in terms of job security, and a lot of people are able to become wealthy because they own land or work in the hotel and service industry.

What do older people and young people think about when making travel plans?

Well, from experience, I think that old people tend to think more about comfort. For example, when I traveled to Europe with my family members, they would think about the comfort and quality of hotels. However, young people tend to think about the adventures and the places. I remember traveling with my friend to Europe, and they would think about what adventurous activities we could do in each country, so I think that's the main difference between old and young people.

1. Compared with the past, people today lack patience. Why?

Well, I think that's a very interesting question. I think that people are more impatient nowadays because they are surrounded by things that are changing really fast in the digital world. For example, in the past, people had to wait for many weeks to get letters from their loved ones, but nowadays people can just text and it instantly gets to that person. So yeah, I think that people are not used to waiting, and that's why people are becoming more and more impatient in this day and age.

How to practice

- *Think of the WHY?*
- *Think of examples*
