PART 1: Introduction (20-25 seconds)

Start with :

- Throughout my life,
- Generally speaking,

Followed by

- such as.....
- whether it be....., or.....

End with :

- However, I decided that I am going to talk about.....

Throughout my life, I have visited a couple of museums and art galleries, whether it be the art museum in Bangkok when I was a teenager or the history museum in London when I traveled with my family. However, today, I decided that I am going to talk about the Bangkok Art and Cultural Center.

Part 2: Talk about the past or yourself

Start with :

To start off,
Naturally,

Past Simple Tense

I used to

I had to

I was

I was studying in

To start off, naturally, I am not into art because even though I like learning about language and science, I feel that it's a challenge for me to understand arts and artsy people. As for the Bangkok Art and Cultural Center, I had to visit the museum when I was in university for my history of art class because we were studying contemporary art, and there was an exhibition of many famous modern artists on that day. Though I wasn't quite interested in the subject, I had to visit the museum as we had to write an essay for that class, so it was kind of mandatory.

Part 3 : Describe in lists

Say : Moving on to the.....

Use

- in terms of
- when it comes to
- when speaking about

Moving on to the description of the museums.

Firstly, when it comes to the building and location, it is located in the center of Bangkok, which is very convenient, because it is accessible by all types of public transport, whether it be by the BTS or bus. The building is very big. I think it has 4 floors, which can be a bit tiring to walk around. I actually got lost twice when I was visiting the place.

Moreover, in terms of the artwork, I would say that the museum mainly displays modern art. There are modern paintings and photography, and so on. However, it doesn't have a lot of historical art pieces, compared to other museums that I visited in the past.

PART 4 : In the future (20–25 seconds)

Start with :

- In the near future, hopefully
- I am given/ have the opportunity

Followed by

- future simple tense
 - I would definitely
 - I hope that

In the near future, if I have an opportunity or time, I would definitely find some time to visit the museum again. Well, because last time I didn't have much time to really appreciate the artwork. Hopefully, they will have more ancient arts. I think that it can be more interesting.
