 - Throughout my life, there have been several moments where people gave me gifts, whether it be for my birthday or when I passed my driving exam.
- Generally speaking, I have bought a couple of electrical devices that are extremely useful....

PART 2: USEFUL IDEAS

- To start off,
 - what : the book is about/ involves
 - an air-fryer is basically a machine that allows to fry your food without using oil
 - where :
 - I purchased it from
 - I got it from
 - It was given to me by
 - how is it different from other things?
 - Compared to normal ovens, air-fryer are different in that they are extremely convenient to use, you can just put your food inside the machine, and everything is cooked within 10 minutes. Moreover, it's so much easier to clean, when compared with other kitchen machines.

PART 3: USEFUL IDEAS

- Moving on to why I enjoyed reading this book
 - first, what I like about the book is that the characters are very diverse. For example,
 - In addition, I particularly like the plot twist. The book is very unpredictable, and there are many surprising elements, which I appreciate a lot.
 - But most importantly, what I love most about it is that
 - I can learn many life lessons from reading the book
 - For instance, it taught me the value of hard-working when one character, Hermione, went on to become successful in the end due to her hard work and perseverance.

PART 4: USEFUL IDEAS

- Finally, if people ask me if I recommend this book/ or electric device, I would like that it depends on whether you
 - have enough time to read a fiction
 - are looking for ways to save your time
- Though, I have to warn them that
 - the books can be time-consuming.
 - the machine can be hard to find in normal shopping malls and can cost quite a lot of money but it's worth it.
