

WRITING TASK 1

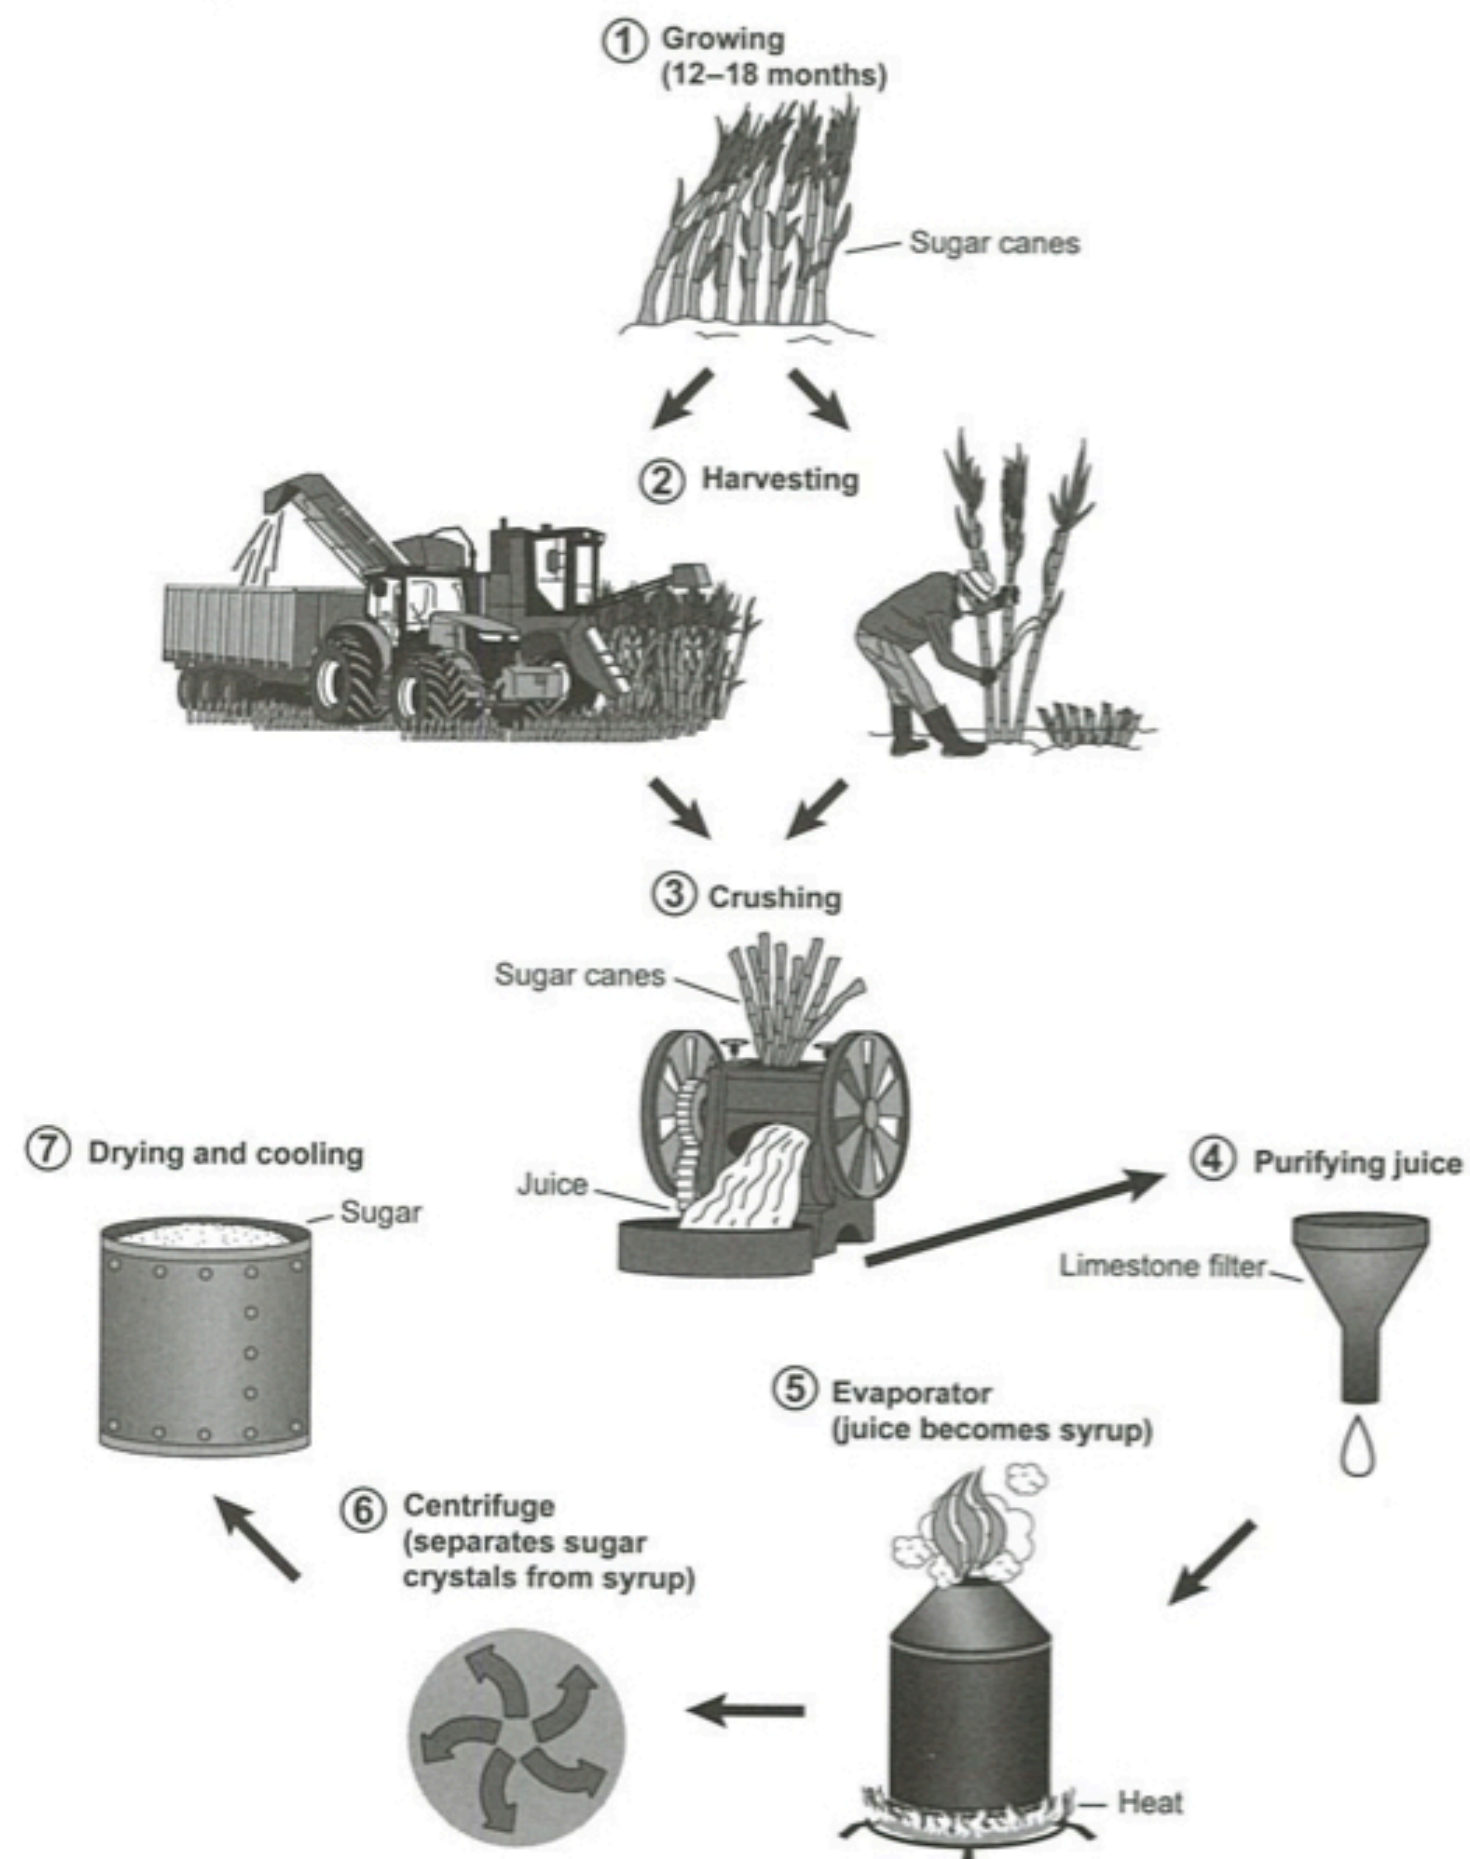

You should spend about 20 minutes on this task.

The diagram below shows the manufacturing process for making sugar from sugar cane.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Write at least 150 words.

How sugar is produced from sugar cane

วิธีเขียน Introduction

The diagram _____ how to produce sugar from sugarcane.

WRITING TASK 1

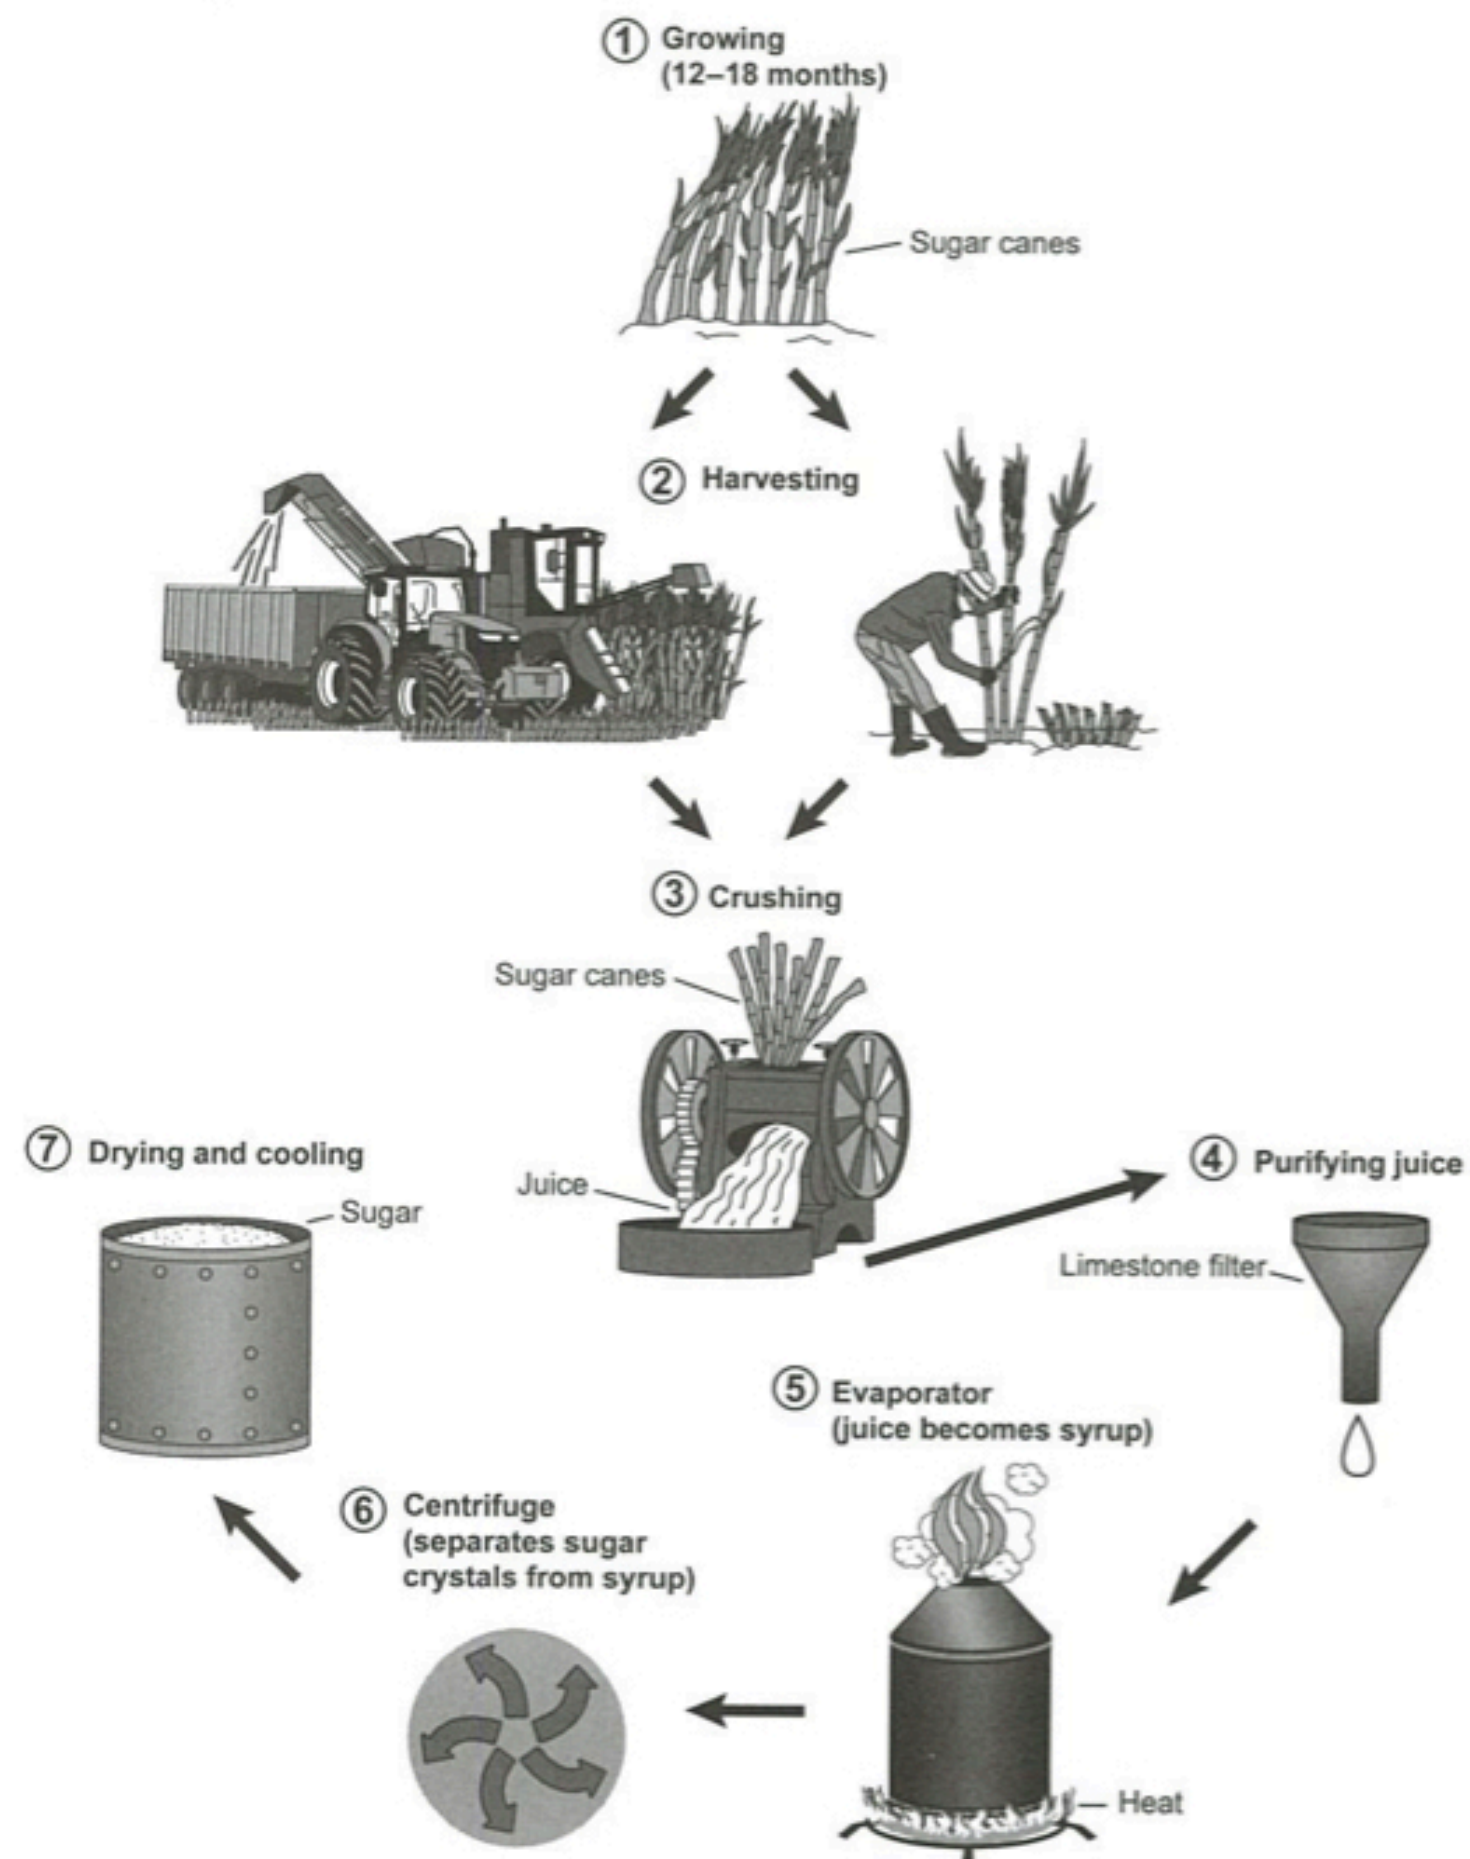

You should spend about 20 minutes on this task.

The diagram below shows the manufacturing process for making sugar from sugar cane.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Write at least 150 words.

How sugar is produced from sugar cane

วิธีเขียน Overview

- บอกมีกี่ Steps
- เริ่มจาก Starting from
- จบด้วย Ending in / culminating in

Overall, there are _____ steps in
 total, _____ from growing sugar
 cane and _____ in the
 dehydration and cooling of sugar.

วิธีอธิบาย Process Diagram

- ใช้ Present Simple
- อธิบายที่ละขั้นตอนด้วย Passive Voice
- ใช้คำขยาย which, where, V.ing
 - ใช้ Either.....or เพื่อบอกว่า ไม่.....ก็.....
- อธิบายขั้นตอนด้วย
 - Then, after that, Consequently = จากนั้น
 - Before + v.ing = ก่อนที่จะ
 - Followed by = ตามมาด้วย
 - In the following/ subsequent stage = ในขั้นตอนต่อมา

How sugar is produced from sugar cane

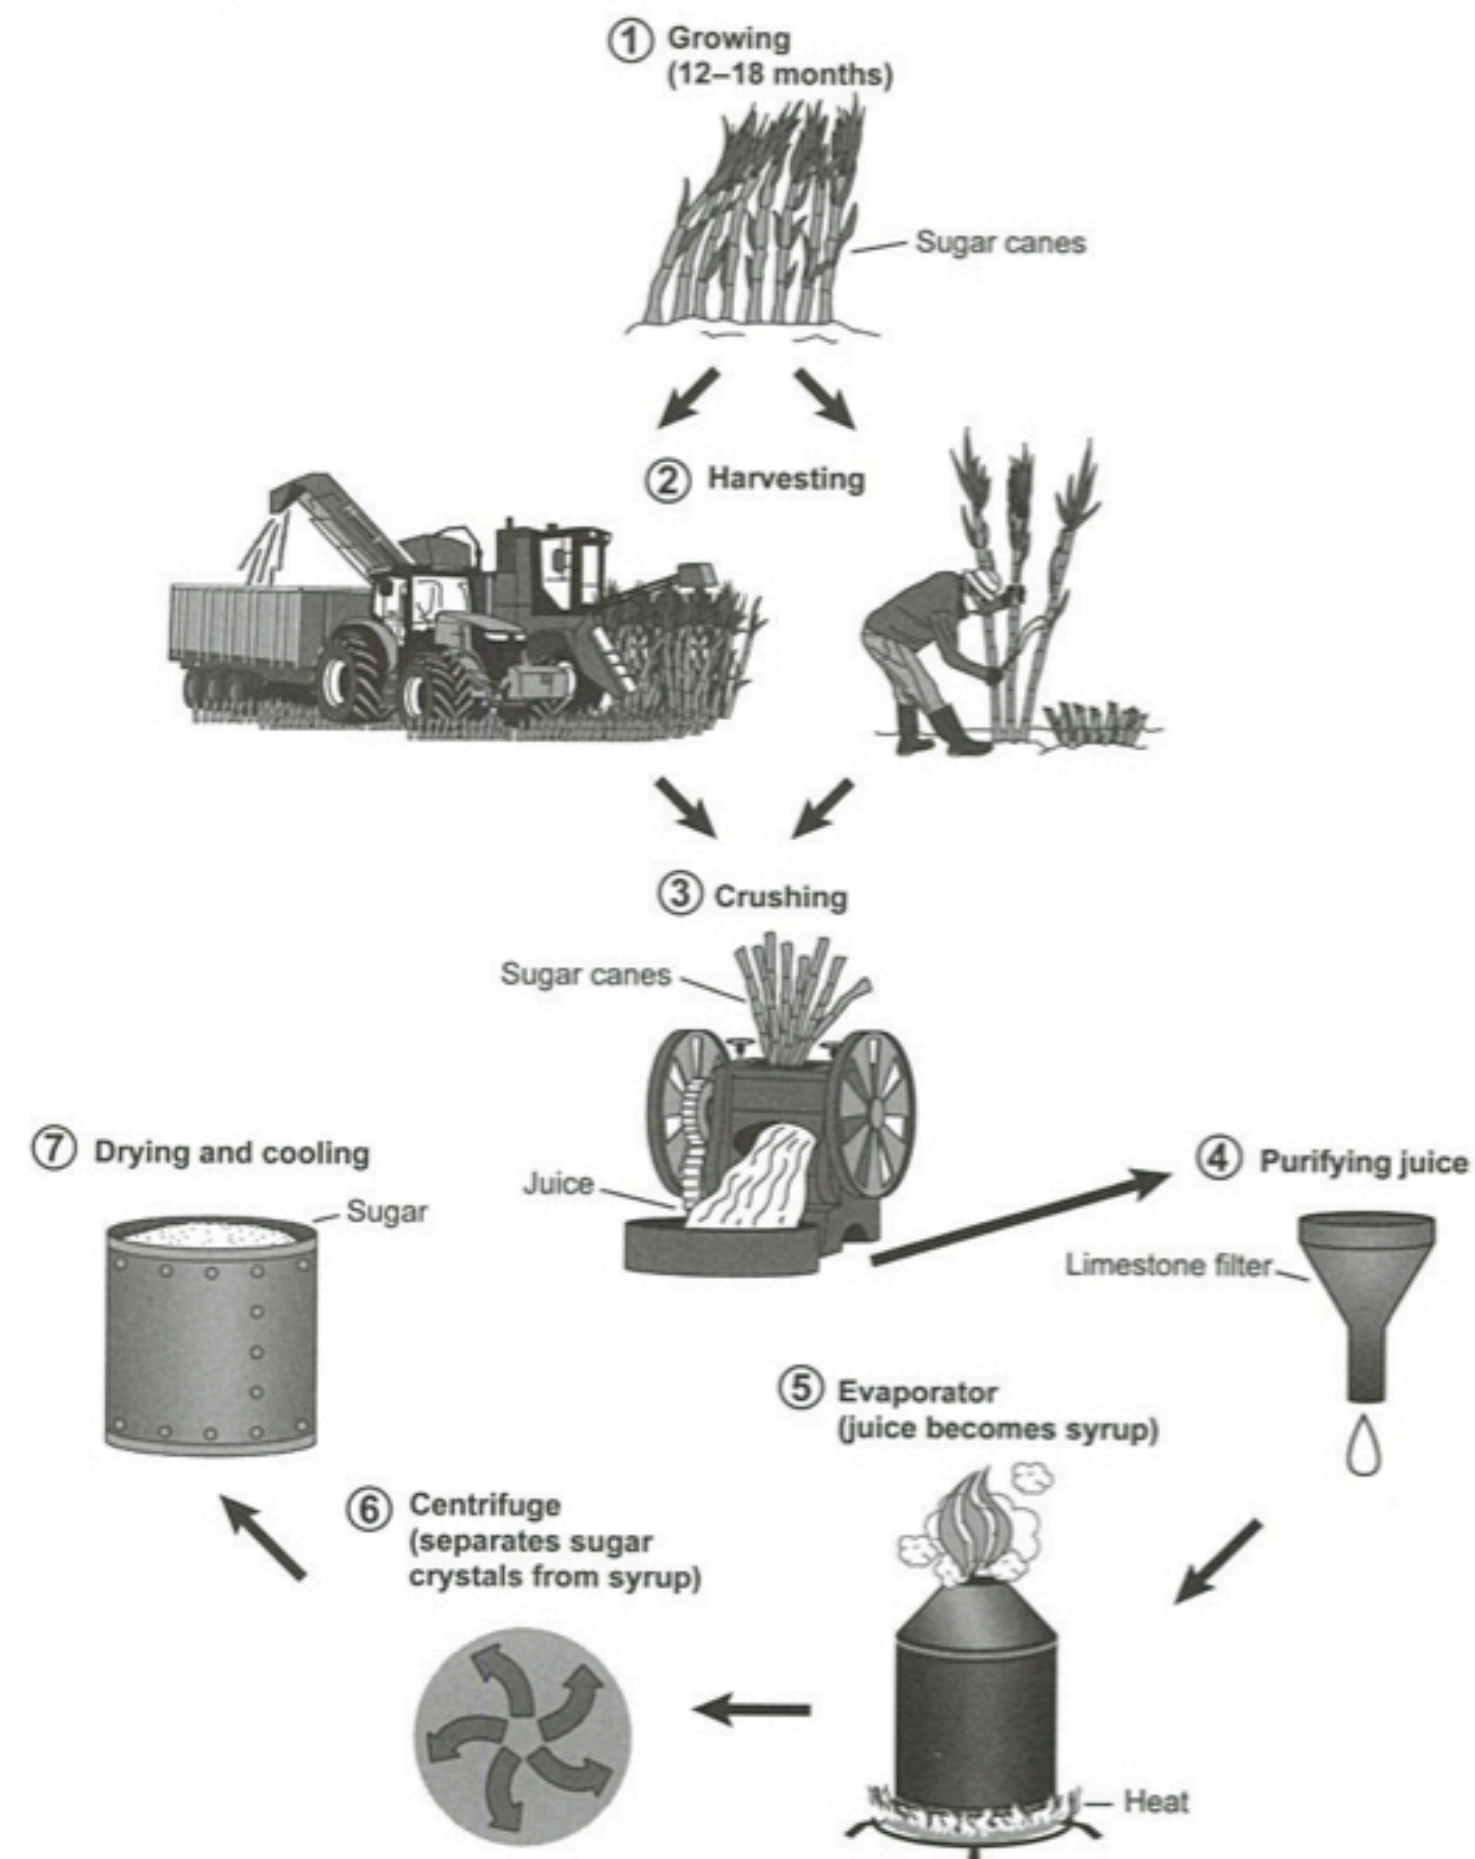

Compare 1

- อธิบายที่ละขั้นตอนด้วย Passive Voice
- ใช้คำขยาย which, where, V.ing
- อธิบายขั้นตอนด้วย
 - Then, after that, Consequently = จากนั้น
 - Before + v.ing = ก่อนที่จะ
 - Followed by = ตามมาด้วย
 - In the following/ subsequent stage = ในขั้นตอนต่อมา

To begin, sugar canes need to be _____ in _____ between one year to one year and a half. Once they _____ mature, these sugar canes are harvested _____ automatically by a harvesting machine or manually by farmers before their juice is _____ by a _____.

Write at least 150 words.

How sugar is produced from sugar cane

Compare 2

- อธิบายที่ละขั้นตอนด้วย Passive Voice
- ใช้คำขยาย which, where, V.ing
- อธิบายขั้นตอนด้วย
 - Then, after that, Consequently = จากนั้น
 - Before + v.ing = ก่อนที่จะ
 - Followed by = ตามมาด้วย
 - In the following/ subsequent stage = ในขั้นตอนต่อมา

_____ the juice is _____ from the sugar canes, it is then delivered to be _____ by limestone filter. _____, the purified juice is boiled, _____ allows the juice to thicken, to _____ it into syrup. _____, the resulted syrup is centrifuged by a machine that separates sugar crystals from the syrup, resulting in the final product, _____ is sugar. Lastly, the sugar is dehydrated and cooled down, which marks the end of the production process.

WRITING TASK 1

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Write at least 150 words.

How sugar is produced from sugar cane

The diagram illustrates how to produce sugar from sugar cane.

Overall, there are seven steps in total, starting from growing sugar cane and culminating in the dehydration and cooling of sugar.

To begin, sugar canes need to be planted in the field between one year to one year and a half. Once they sufficiently mature, these sugar canes are harvested either automatically by a harvesting machine or manually by farmers before their juice is extracted through a crushing process.

Once the juice is extracted from the sugar canes, it is then delivered to be purified by limestone filter. Subsequently, the purified juice is boiled, which allows the juice to thicken, to transform it into syrup. After that, the resulted syrup is centrifuged by a machine that separates sugar crystals from the syrup, which results in the final product, sugar. Lastly, the sugar is dehydrated and cooled down, which marks the end of the production process.
