

Process Diagram

WRITING

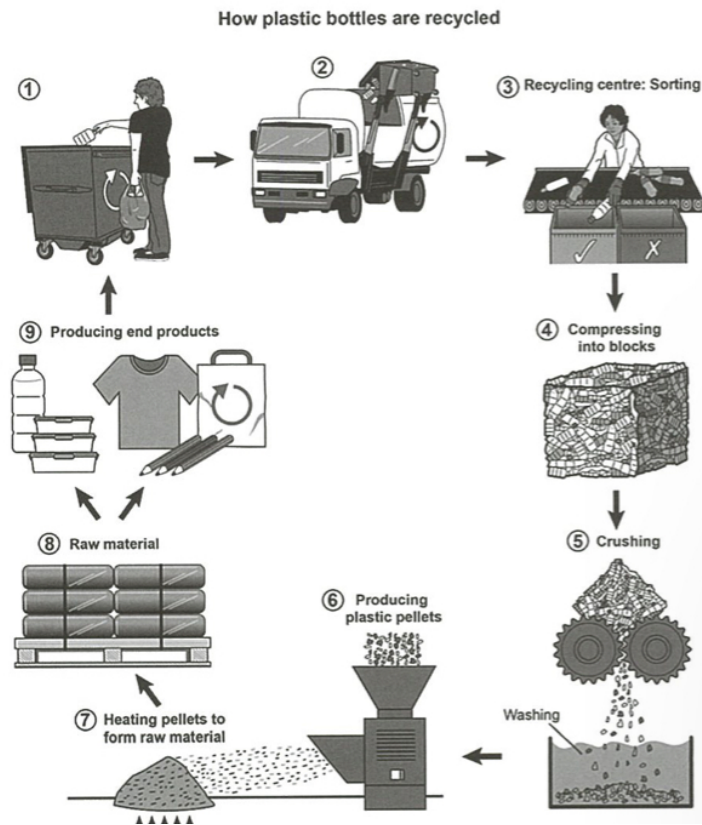

WRITING TASK 1

You should spend about 20 minutes on this task.

The diagram below shows the process for recycling plastic bottles.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Write at least 150 words.

The given diagram illustrates the recycling process of plastic bottles from start to finish.

Overall, the process entails 9 steps in total, starting **from** *the* collection of plastic bottles and culminating **in** *these* bottles being transformed into different products, such as food containers.

To begin with, plastic bottles are collected from trash *before* being delivered by trucks to a recycling center *where* they are sorted. *In the subsequent stage, once sorted*, these bottles are compressed into *a number of* blocks, ready to be crushed during the crushing process.

Once these plastics are crushed into tiny pieces, they *undergo the process of* cleaning using water *before* they will be transformed into plastic pallets. *Subsequently*, these pallets are heated in order to form raw materials, *followed by* the process of transforming these raw materials into a wide range of goods, *particularly* containers, fashion items, and even stationery.

TIPS

- plastic bottles being transformed into (n.)
 - plastic bottles are transformed into (S+V)
 - *ize* - American // *ise* - British
- different / a wide range of / a number of
- such as / particularly/ notably/ especially

GRAMMAR

- before/ after/ once (when) → complex structure
- once/ when + v.3
 - Once done, the homework should be submitted.
 - once /when + v.ing
 - When walking, please be careful.
- To be + v.3 ⇒ passive voice
