You should write at least 150 words.

_____(เกี่ยวกับ) the tuition fee, at 40%, the _____(ส่วนใหญ่ที่สุด) of the surveyed individuals believe that it should be _____ (จ่าย) by students, _____ (ในทางตรงกันข้าม), only _____(25%) argue that the government should use taxes to cover the fee. _____ (น่าสนใจที่), 35% think that employers should take care of this fee for their employees who wish to continue their studies. (170 words)

The charts illustrate different opinions on why adults choose to pursue further education and the people believe it should be financially shared.

Overall, according to the survey, the majority of adults choose to further education to study the subject of their interest, and people mostly believe that the financial costs should be paid by individuals.

In terms of reasons for studying, 40% of the adults decide to pursue higher education to study their subject of interest, while 38% and 22% do so to get a degree and to help with their current job, respectively. However, only 9% and 12% continue their studies hoping to meet new people and to change jobs.

Regarding the tuition fee, at 40%, the highest proportion of the surveyed individuals believe that it should be paid by students, in contrast, only a quarter argue that the government should use taxes to cover the fee. Interestingly, 35% think that employers should take care of this fee for their employees who wish to continue their studies.
